KOTTURU SAIKUMAR

Java Backend Developer

Hyderabad, Telangana 500018 | +91 9381660617 | kotturusaikumar7@gmail.com

PROFESSIONAL SUMMARY

Java Backend Developer with 3 years 2 months of experience building enterprise web applications using Core Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, and MySQL. Strong experience designing and integrating RESTful APIs, implementing business logic, writing unit and integration tests with JUnit and Mockito, and automating builds with Maven and Jenkins. Delivered real-time, production projects for a state-level ERP initiative, including the Data Capturing Tool (DCT) and the National Level PACS Software (NLPS). Experienced in Agile/Scrum delivery, code reviews, debugging, and production support.

SKILLS

Programming Languages: Java, SQL

Java Technologies: Core Java, OOP, Collections, Exception Handling, Spring Data JPA, Hibernate (ORM), JSON

Frameworks: Spring Framework, Spring Boot, Spring Security

Database Technologies: MySQL, Hibernate/JPA mappings, SQL queries

Web Technologies: RESTful APIs, HTTP, JSON

Tools and Build Technologies: Maven, Jenkins, SonarQube, Jira

Testing Technologies: JUnit, Mockito, Unit Testing, Integration Testing

Version Control and Deployment: Git, GitHub, Docker, Jenkins CI/CD, AWS

Concepts: Design Patterns, Data Structures, Agile, Scrum

PROFESSIONAL EXPERIENCE

Java Developer (Backend) | Intellect Informatics, Hyderabad | 08/2023 – Present

- Develop and maintain backend modules in Java and Spring Boot for the AP State ERP project and the National Level PACS Software (NLPS), serving Primary Agricultural Credit Societies (PACS).

- Apply Core Java, OOP, and design patterns to implement business logic and maintain data integrity.
- Deliver assigned modules from requirement understanding to production deployment, including bug fixing and production support for PACS units in Andhra Pradesh.
- Maintain code quality through unit testing, code reviews, and SonarQube checks.
- Work in Agile/Scrum teams, track tasks in Jira, document code and APIs, and give regular status updates to stakeholders.

PROJECTS

Project 1: Data Capturing Tool (DCT) – AP State ERP Project

Company: Intellect Informatics, Hyderabad

Overview: Part of the AP State ERP initiative to digitize PACS records previously maintained in physical books. The tool captures legacy data and migrates it into the state ERP system with accurate field mapping and validation.

Technologies: Java, Spring Boot, Spring Security, Hibernate, RESTful APIs, MySQL, Git, JUnit, Mockito, Jenkins, Docker

Roles and Responsibilities:

- Developed and maintained backend modules in Java and Spring Boot to capture legacy PACS data.
- Implemented data validation and field-mapping logic to reduce entry errors and maintain data integrity.
- Worked with senior developers and cross-functional teams to integrate the tool with the state ERP, reducing integration time by 25%.
- Optimized specific workflows, reducing data processing time by 20%.
- Supported production deployment across PACS units in Andhra Pradesh, meeting delivery deadlines.
- Participated in code reviews and debugging, improving post-deployment stability.

Business Impact: Moved manual, book-based PACS records into a digital ERP, improving data accuracy and streamlining data entry at state level.

Project 2: Enterprise Resource Planning (ERP) – National Level PACS Software (NLPS)

Company: Intellect Informatics, Hyderabad

Overview: Deployment of NLPS to digitize operations of Primary Agricultural Credit Societies, covering financial, loan management, and procurement processes in line with national standards.

Technologies: Java, Spring Boot, Spring Data JPA, Hibernate, Spring Security, RESTful APIs, MySQL, Git, JUnit, Mockito, Jenkins

Roles and Responsibilities:

- Developed backend components using Java and Spring Boot for PACS operations.
- Built and integrated RESTful APIs between client applications and the back end.
- Managed data storage and retrieval using Spring Data JPA and MySQL.
- Implemented authentication and authorization with Spring Security.
- Wrote unit and integration tests using JUnit and Mockito.
- Automated build and deployment with Jenkins.
- Delivered sprint milestones in Agile teams and gave regular progress updates to stakeholders.

Business Impact: Supported digitization of financial, loan, and procurement processes, improving operational efficiency and compliance with national standards.

EDUCATION

Master of Computer Applications (MCA) | Jawaharlal Nehru Technological University, Vizianagaram | 2022

CERTIFICATIONS

- Java Full Stack Developer Certification, Sathya Technologies (7 months)
